OBJECTIVE

AWS Certified Cloud Practitioner with hands-on experience designing and deploying cloud-based architectures on AWS, including EC2, S3, IoT Core, DynamoDB, and Lambda. Proficient in cloud infrastructure planning, cost estimation, and real-time data flow on AWS ecosystem. Seeking to leverage cloud expertise in a technically driven IT environment to architect scalable, efficient, and cost-optimized AWS solutions.

EDUCATION

AISSMS Institute of Information Technology, Pune

2022 – 2026

B.Tech in Electrical Engineering | Minor: AI and Data Science - CGPA: 7.76/10

12th – Saraswati Bhuvan College of Science | MSBSHSE (2022): 65%

10th – Saraswati Bhuvan High School | MSBSHSE (2020): 93%

PROJECTS

PowerPulse – Smart Energy Monitoring Platform | AWS IoT Core, MQTT, Node.js, Express.js | 🌐 2024-2026

- Configured **Teltonika TRB245** IoT Gateway for Multifunction meter data acquisition via **RS-485/Modbus**, mapping multiple register IDs and enabling **MQTT**-based telemetry transmission to **AWS** cloud infrastructure.
- Designed and developed a cloud-connected IoT architecture using **AWS IoT Core** and **MQTT**, implementing real-time data pipelines with **AWS Lambda**, **S3**, **DynamoDB** and AI-powered report generation using **Amazon Bedrock**.
- Achieved **0.8-second latency** with **zero packet loss** while managing cloud infrastructure, system architecture and end-to-end data flow across IoT, database and web layers.

Apurva Creation – Creative Agency Platform | React.js, Next.js, AWS (EC2, S3, CloudFormation) | 🌐 | 🌐 2026

- Architected and deployed a production-ready React.js and Next.js web application on **AWS** using **Amazon S3**, **CloudFront** and **AWS Certificate Manager (ACM)**, delivering a scalable, serverless and highly available hosting solution.
- Implemented secure cloud infrastructure with private S3 buckets, **CloudFront Origin Access Control (OAC)**, HTTPS/TLS encryption, **IAM**-based access management and custom domain integration.
- Optimized website performance and global accessibility through **CloudFront** **CDN** caching, static asset delivery and modern frontend development using React.js, Next.js, TypeScript and Tailwind CSS.

SKILLS

Technical Skills: AWS (*IoT Core, EC2, DynamoDB, SNS, Lambda, Bedrock*), Linux (Ubuntu Basics), IoT Systems, Azure IoT Hub, MQTT, Networking Fundamentals

Programming Languages: Java, SQL

Version Control: Git, GitHub

Tools and Platforms: VS Code, Google Antigravity, Azure IoT Explorer

Languages: Marathi, Hindi, English

CERTIFICATIONS

AWS Certified Cloud Practitioner (CLF-C02) | Amazon Web Services

Java – Alpha Course | Apna College

AWS Academy Cloud Architecting | AWS Academy

PUBLICATIONS

Design and Implementation of IoT Based Energy Monitoring System for Smart Energy Meters | *IEEE ODICON 2026*

- Published in the **2026 4th Odisha International Conference on Electrical Power Engineering, Communication and Computing Technology (ODICON)**, IEEE, Bhubaneswar, India.
- DOI: 10.1109/ODICON66687.2026.11470902
- Authors: Vaidya M., Sonje Y., Bhandari R., Joshi V., Gadgil K., Shelar S.

INTELLECTUAL PROPERTY

Ovarian Cancer Early Detection with AI – Leveraging Deep Learning and Clinical Data Integration

- Registered under Literary & Dramatic Works, Copyright Office, Government of India. (Registration No.: L-159453/2025)

LEADERSHIP & ACTIVITIES

Media Head – Vyoma Zonal Prototype Competition

2024–2026

- Led a 10+ member team delivering structured event coverage (25+ reels, 300+ photos) across 5+ colleges while managing stakeholder communication and reporting.

Joint Technical Secretary – Antariksha Space Club

2023–Present

- Coordinating propulsion design, documentation and cross-team communication for experimental rocket development and milestone presentations.
